Quarterly Volumes

Achieved All Time High Quarterly Volume of 356 MT (205 MT for Sales and 151 MT for Job Work) in Q2 FY27

Chandigarh, 1st October 2026: JTL Defence Limited ("JTL Defence" or "The Company") (BSE: 537254), a manufacturer and trader of non ferrous metal products, primarily catering to defence, electrical and industrial applications and offering a diversified portfolio including copper wires, copper and copper alloy strips/foils, brass, stainless steel products and tin based solders, announced its business performance update for the quarter ended 30th September 2026.

Quarterly Sales Volume (MT)

Commenting on the sales volume update, Mr. Pranav Singla, Managing Director of JTL Defence Ltd. said:

"*JTL Defence achieved its highest ever quarterly volume of 356 MT in Q2 FY27, with 205 MT from manufacturing sales and 151 MT from job work. The volume increased by 18.67% compared to Q1 FY27, supported by higher job work volumes and steady demand across our key product segments.*

Going forward, we will continue to focus on expanding our presence across the defence, electrical and industrial sectors, while strengthening our customer relationships and increasing the share of value added products in our portfolio. We remain focused on improving our manufacturing capabilities and building on the growth achieved during the quarter."

About JTL Defence Limited

JTL Defence Limited (formerly RCI Industries and Technologies Limited) is engaged in the manufacturing of non ferrous metal products. The Company operates its manufacturing facility at Baddi, Himachal Pradesh. It offers a diversified portfolio of copper, brass and alloy based products, including copper strips and foils, brass strips, stainless steel foils and phosphorous bronze strips. The Company caters to a wide range of electrical, automotive and industrial applications, with a presence across domestic and international markets, including the Middle East and Africa.
